

COVID Safe Plan for Wilston-Grange Football Club Home games:

Taking into account the Queensland State Government and AFLQ requirements the Wilston Grange Football Club have made the following preparations for their first Home Game on Saturday, 18th July 2020 and, with necessary amendments as become apparent with experience, subsequent games:

To meet the requirements to record attendance, the Club has established a QR code system. This will be available for all grades of football from Auskick to Senior Men's and Women's games. A separate manual written option is also available for those who refuse the QR system. Those who refuse to record their attendance will be asked to leave the venue.

In accordance with the requirements, the Club has placed extensive signage throughout the venue (Hickey Park).

These signs include but are not limited to the following areas:

- Physical (Social) Distancing notices.
- Hygiene - Hand washing both with soap in the Toilet areas and with strategically placed sanitiser bottles in many locations around the venue.
- QR code attendance signage extensively throughout all public areas with additional signage confirming the requirement of all patrons to record their attendance.
- Various other Covid reminder signs including requests to use the Covid—Safe app.
- Maximum number of persons signs in indoor parts of the venue.

Bar Area:

The Club's bar will be open throughout the day.

In order to meet the Covid requirements for the bar:

- Those persons associated with the operation of the bar have been briefed on the Covid Safety requirements.
- 2 ENTRY and EXIT doors have been established and clearly signed to facilitate movement to and from the bar with the appropriate Physical Distancing.
- Floor markings have been applied to signify the appropriate separation of customers queueing.
- Furniture and other barriers have been put in place to emphasise this separation.
- The appropriate COVID workplace checklist has been completed and is placed near the bar in a position clearly accessible to be read by the public if required.
- "Respect our Staff" signage has been placed in the bar areas.
- Request for use of EFTPOS payment signs are in place.

The Ground Announcement system will be used throughout the day to remind patrons of their requirement to maintain Physical Distancing and safe Hygiene practices and attendance recording.

All of the above requirements have also been forwarded to as many Club members and followers as possible using the Clubs various social media formats and via email to team managers and officials.
